

Programme

Tuesday Afternoon – August 20th, 2019

Resident Course		sponsored by Idexx
13:00	Opening time for registration	
14:00	Oncological Imaging	Barbara Kaser Hotz
14:45	Diagnostic Imaging Of Nasopharyngeal And Auricular Tumors	Nadia Pfammatter
15:30	Coffee break	
16:00	Small Intestinal Ultrasound With Histo Correlation	Lorrie Gaschen
16:45	Update On Hepatobiliary Ultrasonography	Lorrie Gaschen
17:30	Examination Committee	
17:45	End of program	
20:00	Resident dinner	

Wednesday – August 21st, 2019

Resident Course		
08:00	Opening time for registration	
08:30	MRI Artefacts And Pitfalls	Silke Hecht
09:15	Update On IVDD Imaging – HNPE, ANNPE And Other Annoying Acronyms	Silke Hecht
10:00	Coffee break	
10:30	Is It Septic? How To Recognize Radiographic Features Of Bone And Joint Infections In Large Animals	Lorrie Gaschen
11:15	Common And Uncommon Causes Of Lameness In Dogs	Silke Hecht
12:00	Lunch break for residents	

EVDI Meeting 2019

12:30	Opening time for registration	
13:00	Official opening of the EVDI Meeting 2019	
	Chairperson: Susanne Boroffka	
13:15	Keynote – Diagnostic Imaging Of Chronic Renal Disease In Cats: The Internal Medicine Specialist's And Radiologist's Point Of View	Thierry Francey Jimmy Saunders
Abstract session: Abdominal imaging I		
14:15	Can Absence Of Renal Cortical Anisotropic Backscattering Artifact Be Used For Detecting Feline Chronic Kidney Disease?	Kuan-Sheng Chen
14:27	The Ultrasonographic Medullary "Rim Sign" In Cats And Its Correlation With Renal Disease: A Retrospective Study Of 84 Cases (2008–2017)	Alessia Cordella
14:39	Proposed Standardized Procedure For Abdominal Sonograms In Dogs And Cats: Sonographic Diagnostic Efficiency Protocol (SDEPTM)	Eric Lindquist

14:51	Contrast-Enhanced Ultrasonography (CEUS) In Dogs With Inflammatory Bowel Disease	Alessia Diana
15:03	Ultrasonographic Study Of The Influence Of Gain Adjustment In Fluid Filled Organ Evaluation	Jeongsu An
15:15	Safety Of Ultrasound-Guided Fine-Needle Aspiration Of Adrenal Lesions In Dogs: Perception By 138 Radiologists And Presentation	Pascaline Pey
15:27	Feasibility Of Non-Transabdominal Ultrasonographic Approach For Canine Rectum And Anal Canal Imaging	Hyeona Kim
15:39	Diffusion-Weighted And Perfusion-Weighted Magnetic Resonance Imaging Of The Prostate Gland Of Clinically Healthy Adult Dogs	Florian Willmitzer
16:00	Coffee break	
16:30	Case of the day	
	Chairperson: Andrew Parry	
	Abstract session: Abdominal imaging II	
16:45	How To Use Saline Chaser With Contrast Medium In Abdominal Computed Tomography Angiography In Dogs?	Florence Thierry
16:57	Comparison Of Non-Contrast vs CT Angiography Of The Abdomen To Detect Intra-Hepatic Shunt In Dogs	Hock Gan Heng
17:09	Computed Tomography (CT) Evaluation Of Hepatic And Bone Density In Dogs With And Without Hyperadrenocorticism	Martina Manfredi
17:21	Multidetector-Row Computed Tomographic Features Of Splenic Extramedullary Hematopoiesis In Dogs	Alessia Cordella
17:33	Intra- And Inter-Observer Variability Of Multidetector-Row Computed Tomographic Measurements Of The Adrenal Glands In Large Breed	Simone Perfetti
17:45	Multidetector Computed Tomography Of The Acute Abdomen In Goats	Susanne Steiger-Vanegas
18:00	End of program	
19:00	Welcome Reception including Cocktail Dinner (Congress venue, details: page 11)	
21:00	End of Welcome Reception	

Thursday – August 22nd, 2019

08:00	Opening time for registration	
	Chairperson: Thomas Maddox	
08:30	Keynote – The Radiologist’s And Pathologist’s Perspective Of Brain Diseases: Who Sees What?	Swan Specchi Anna Oevermann
	Abstract session: Neuroimaging I	
09:30	The Necessity Of Intravenous Contrast CT In Addition To Plain CT In Dogs With Head Trauma	Yasamin Vali
09:42	Computed Tomographic Characterization Of The Neurocranium Sutures And Fontanelles Of Canine Fetuses	Vania Maria de Vasconcelos Machado
09:54	Accuracy Of MRI In The Detection Of Skull Fractures In A Cadaver Model Using CT As The Gold Standard	Silke Hecht

10:06	Morphological Variation Of The Osseous Structures Of The Caudal Cranial Fossa (CCF) Of Dog's Skulls Assessed Via Computed Tomography (CT)	Norbert Czubaj
10:18	Magnetic Resonance Imaging Characteristics Of Multifocal Vertebral Changes In Dogs	Ana Rita Ramalho Furtado
10:30	Magnetic Resonance Imaging Features Of Solitary Vertebral Masses In Nineteen Dogs And One Cat	Emilie Hanot
10:45	Coffee break	
11:15	Case of the day	
	Chairperson: Matthias Dennler	
	Abstract session: Neuroimaging II	
11:30	Neuronal Current Imaging In Dogs With Idiopathic Epilepsy Using A Phase-Cycled Stimulus-Induced Rotary Saturation (PC-SIRS) Technique With Spin-Lock Preparation	Daniela Unger
11:42	Frameless MRI-CT Fusion Neuronavigation-Guided Stereotactic Brain Biopsy In Companion Animals	Felix Meneses
11:54	Clinical And Magnetic Resonance Imaging Features Of Nervous System Lymphoma In Cats	Alexane Durand
12:06	Comparison Of Susceptibility- And T2*-Weighted Sequences For Detection Of Intracranial Signal Void In Magnetic Resonance Imaging Of Dogs And Cats	Nadja Wolfer
12:18	Ultrasonography Of Traumatic Sciatic Nerve Lesions In Dogs	Mathieu Harel
12:30	Posterlunch	
14:00	End of program	
15:00	Guided tour Basel (Meeting point: Tinguely fountain, details: page 11)	
17:00	Free time in Basel	

Friday – August 23rd, 2019

08:00	Opening time for registration	
	Chairperson: Kerstin von Pückler	
08:30	Keynote – MRI Of Muscular Diseases In The Human Athlete	Roman Guggenberger
	Abstract session: Musculoskeletal imaging	
09:15	The Slope Of The Pelvis Does Not Show Correlation With Canine Hip Dysplasia	Peter Csebi
09:27	High Resolution Ultrasound Of The Tendons Of The Border Collies Carpus	Giliola Spattini
09:39	Three-Dimensional Printing Of Patient-Specific Models For Surgical Correction Of Complex Angular And Torsional Limb Deformities In Dogs And Cats	Susanne Steiger-Vanegas
09:51	Feasibility And Reproducibility Of Shear Wave Elastography In Evaluating Biceps Brachii Tendon In Healthy Dogs: Preliminary Results	Stefania de Dominicis
10:05	Case of the day	
10:15	Coffee break	

	Chairperson: Stefanie Ohlerth	
10:45	Master class – Size Doesn't Matter: Advanced Imaging Of The Heart?	Katharyn Mitchell
	Abstract session: Equine I	
11:15	Effect Of Mas Reduction On Image Quality And Scatter Radiation In Equine Head CT	Thomas Davies
11:27	Comparison Of Cone-Beam Computed Tomography And Multidetector Computed Tomography In Description Of Eleven Equine Heads	Claudia van Zadelhoff
11:39	Computed Tomography Abnormalities Of The Cervical Articular Processes And Articular Process Joints In Warmblood Horses: 102 Cases	Tibor Rovell
11:51	Evaluation Of The Minimum Sagittal Diameter Of The Cervical Vertebral Column In Brazilian Northeastern Donkeys (Equus Asinus)	Alex Ferreira Mendes
12:03	Radiographic Findings Of Thoracolumbar Intervertebral Articulations In Warmblood Horses With And Without Back Pain And Their Clinical Significance	Maren Hellige
12:15	Qualitative And Quantitative Evaluation Of The Equine Gastrointestinal Tract Using Ex-Vivo Ultrasonography And Histology – Preliminary Findings	Che Kin Lim
12:30	Lunch break	
	Chairperson: Seamus Hoey	
13:30	Keynote – Equine Joint Imaging: CT Or MRI?	Natasha Werpj
	Abstract session: Equine II	
14:15	Computed Tomography Of The Equine Elbow	Marieke Zimmerman
14:27	Diagnostic Utility Of 105 Distal Extremity Contrast Enhanced Computed Tomograph Examinations In The Horse	Frederik Pauwels
14:39	MRI Diagnosis Of Proximal Extension Of Deep Digital Flexor Tendon Lesions From The Foot To The Pastern Region	Aurélié Thomas-Cancian
14:51	Comparison Of Standing Low-Field Magnetic Resonance Imaging And Histology For Findings In The Distal Sesamoidean Impar Ligament	Dagmar Berner
15:03	Imaging Findings And Clinical Follow Up Of Horses With Insertional Deep Digital Flexor Tendinopathy With Or Without Associated Enthesiopathy	Sarah Taylor
15:15	Coffee break	
	Chairperson: Dagmar Berner	
15:45	Master class – CT Of The Distal Limb In Standing Horses – Machines, Methods And Opportunities	Frederik Pauwels
	Abstract session: Equine III	
16:15	Validation Of A Scanner Prototype For Pet Imaging Of The Foot In Standing Horses	Mathieu Spriet
16:27	¹⁸ F-FDG Pet For Assessment Of The Hoof Lamina In Normal, Laminitic And Lame Horses	Mathieu Spriet
16:39	Comparison Of Shear Wave And Strain Ultrasound Elastography For Evaluating Forelimb Fetlock Capsules In Horses	Giulia Guerri
16:55	End of program	

17:00	ECVDI Annual General Meeting	
19:00	End of meeting	
19:30	Admission Gala Dinner	
20:00	Gala Dinner – Celebration Of The 25 th Anniversary Of The College (Venue: Safranzunft, details: page 11)	

Saturday – August 24th, 2019

08:00	Opening time for registration Chairperson: Yvonne Espada	
08:30	Keynote – Introduction To Computer-Assisted Quantification In Neuroimaging	Richard Mckinley
	Abstract session: Miscellaneous topics	
09:15	Artificial Intelligence In Veterinary Medicine: How To Assist The Radiologist	Ines Lautenschläger
09:27	Helical Computed Tomographic-Dacryocystography Of The Normal Nasolacrimal Drainage System In Pet Rabbits	Julien Fritz
09:39	Skeletal Abnormalities In Stranded Harbour Porpoises (Phocoena Phocoena) Detected By Computed Tomography	Dorien Willems
09:51	Gestational Sonography In Nurse Shark (Ginglymostoma Cirratum)	Caterina Muramoto
10:03	Feasibility And Reproducibility Of Shear Wave Elastography In Evaluating Lenticular Elasticity In Normal Dogs	Francesca del Signore
10:15	Conventional Ultrasonography, Ultrasound Biomicroscopy And 3T Microcoil Magnetic Resonance Imaging Of The Normal Canine Eye	Daniel Ivan
10:30	Coffee break Chairperson: Johann Lang	
11:00	Master class – When Do We Stop? Ethical Approach To The Oncological Patient When Imaging Reveals Advanced Cancer	Barbara Kaser-Hotz
	Abstract session: Thoracic imaging	
11:30	Feasibility Of Computed Tomography Lymphangiography By Intra Metatarsal Pad Injection In Dogs And Cats With Chylothorax	Lee-Shuan Lin
11:42	Computed Tomographic Features Of Presumed Plate-Like Atelectasis In 30 Dogs And 10 Cats	Sabrina Manfredi
11:54	Novel Coronary Artery Anomaly In A French Bulldog With Pulmonic Stenosis	Maria Elena Andreis
12:06	Intra- And Inter-Observer Reliability Of Computed Tomography Measurements Of The Soft Palate In French Bulldogs	Pauline Deprez
12:18	Case of the day	
12:30	Lunch break Chairperson: Kathelijne Peremans/Aste Sovik	
13:30	Keynote – Induction Of Secondary Cancer In Humans By Radiation Therapy	Uwe Schneider
14.15	ICRP update on radiation protection	

Abstract session: Radiation protection		
14:30	The Effect Of Diuretics On The Image Quality Of Equine Bone Scintigraphy And Personnel Radiation Dose	Mahmoud Mageed
14:45	Coffee break	
	Chairperson: Kathelijne Peremans/Aste Sovik	
15:15	Master class – Interventional Oncology In Humans	Thomas Pfammatter
Abstract session: Oncology		
15:45	The Effects Of Irradiation On Circulating Lymphocytes In Dogs Receiving Fractionated Radiotherapy	Michael Kent
15:57	Diagnostic Imaging Findings In Four Cases Of Canine Gastric Leiomyoma	Raquel Salgüero
16:09	Single-Phase vs Double-Phase Contrast-Enhanced Computed Tomographic Liver Staging In The Dog	Daniele Della Santa
16:30	End of program	
16:45	EAVDI Annual General Meeting	
17:45	End of meeting	
19:00	Farewell party and award presentation (Venue: Halle 7, details: page 11)	

Program subject to change
